

## Tips for Allergy Sufferers

- Keep windows closed at night; use air conditioning to keep air cool, clean and dry.
- Minimize early morning activity (between 5:00 and 10:00 a.m.); that's when pollen is the most intense.
- Keep your car windows closed when you drive to work or school.
- Stay indoors when the pollen count or humidity levels are high, and on windy days when dust and pollen are mixing in the air.
- Take a vacation during the height of the pollen season (beach areas have the least amount of pollen).
- Stay away from freshly cut grass.
- Don't grow too many indoor plants; wet dirt causes molds to form.

## Slipping and Sliding

Remember to be especially careful driving during wet weather. Use additional caution when driving in our community during the rain. Be especially cautious of residents dashing in from the weather and cars backing out. As we know, it is very difficult to stop quickly when the roads are wet. Most accidents occur during bad weather.

AAA recommends the following tips for driving in wet weather:

- Safety starts before you drive. Replace windshield wipers that leave streaks or don't clear the glass in a single swipe. Make sure all headlights, taillights, brake lights and turn signals are properly functioning so other drivers will see you during downpours. Always turn on your headlights when it's raining.
- Proper tire inflation is imperative to maintaining good traction on wet roads. Check each tire's pressure, including the spare, at least once a month.
- Slow down and turn off your cruise control to maintain better control and to avoid hydroplaning.
- Avoid hard braking and sharp turns.
- Increase your following distance a few more car lengths.

## Pests Are Coming!

Warmer weather brings little pests, so please make sure all trash is taken directly to the dumpsters and not left in your home, outside your door or on your balcony/patio.

## For the Birds

A favorite pastime of spring is bird watching. Many birds will be returning to our community in the next few weeks after a long vacation down south. Although we enjoy watching our winged friends, please remember that bird houses or feeders should not be placed on your patio/balcony. Birds tend to leave behind droppings that can stain and actually damage paint on the building and your property on the balconies.

If you enjoy bird watching, contact the office. We will be glad to help you hang a bird feeder in a nearby tree away from buildings and property.

GIVE THEM A

*Hug*

April 10 is National Siblings Day – a day that celebrates the relationship between brothers and sisters. It is usually a person's longest relationship over his or her lifetime!

Some studies suggest that sisters protect their siblings from feeling blue; having a younger sibling can help against obesity; and having a sibling of the opposite sex can help you get dates.

Take time to give them a hug, pick up the phone and call them or write them a note.

*Have fun finding your way through the Egg Maze!*

*As we celebrate Earth Day on Sunday, April 22, here are some fun things you might want to do!*

Take a hike! Get outdoors and get that Vitamin D! Whether it's your favorite spot or you want to explore a new one, pack a light backpack with snacks and water and set out!

You've seen community gardens. Find out first hand how to produce food for yourself or others. Or try your hand at a potting garden.

Declutter and get back to basics in your home. More stuff means less time to pursue what you want. By donating and not throwing away, you'll help others and reduce landfill waste.

Walk, ride a bike, carpool as much as you can. Good for your body and good for our planet!

Plant a tree or donate to plant a tree. Find out what your city is doing to celebrate Earth Day and get involved. Check out the National Forest Foundation, Trees for the Earth, or One Tree Planted. Great thing to do for Arbor Day (4/27) as well!

Search [earthday.org](http://earthday.org) to find events happening around you or plan your own!
